

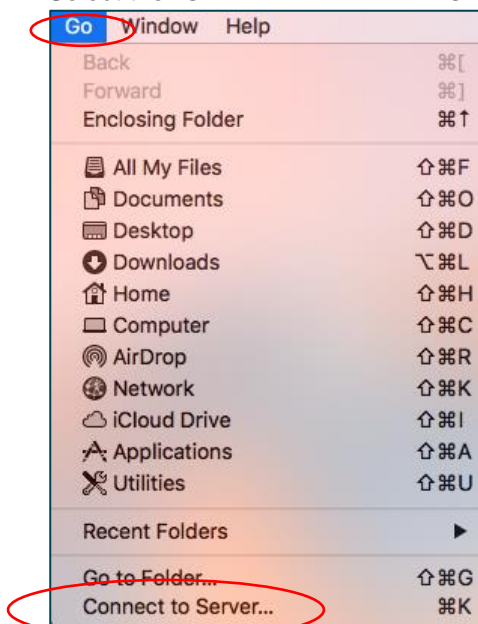

Mapping a network drive - MAC

Follow these steps to map a UCN network drive

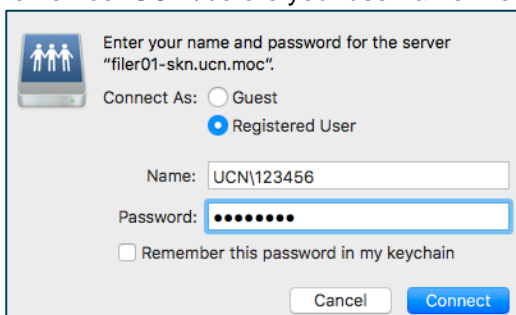

1. Select the "Go" menu and select "Connect to server..."

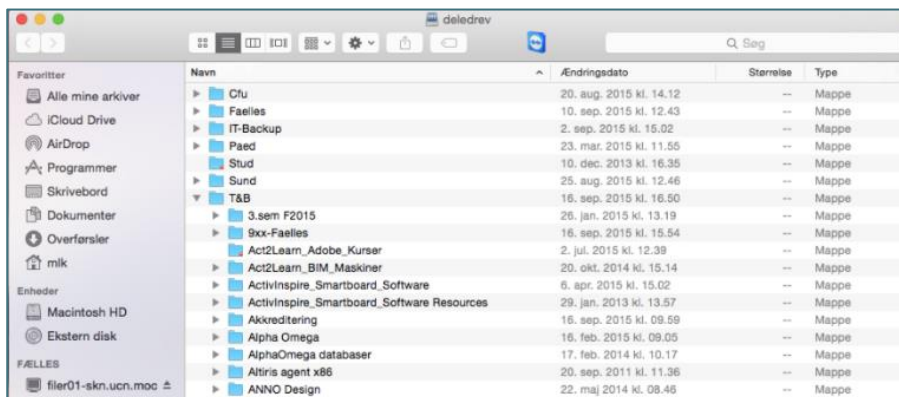

2. Now you must choose between the following- depending on which drive you wish to associate:

- If you want to map the team drive /holdrev type: **smb://filer02-skn.ucn.moc/hold**
- If you want to map the shared drive /deledrev type: **smb://filer02-skn.ucn.moc/deledrev**

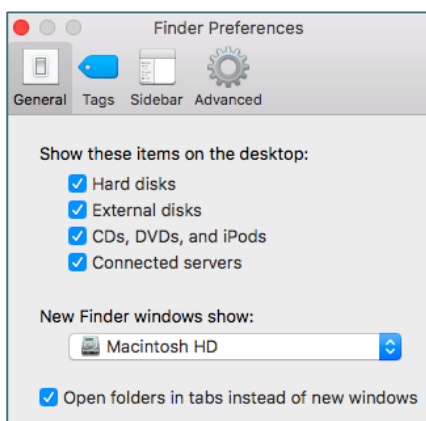

3. After choosing the desired share, you will receive a prompt to login. Login with your UCN account, remember UCN\ before your username like so:

4. Select **Finder** – And here you'll see the shared drive

5. To create a shortcut on the desktop please select Preferences in **Finder** and mark **Connected servers**

Problems?
