Det er et krav, at du medbringer din egen bærbar computer med min. 8 GB ram og min. i5 processor (eller tilsvarende) der ikke er ældre end to år. Du skal sørge for, at der er tilstrækkelig harddisk plads til installation af større udviklingsmiljøer. Der arbejdes med flere Microsoft produkter på uddannelsen, hvorfor andre operativsystemer end Microsoft Windows kan medføre udfordringer.

It is required that you bring your own i5 processor (or similar) laptop with a minimum of 8 GB of RAM not older than two years. Make sure that you have enough free hard drive space to install larger development environments. There will be used several Microsoft technologies in the programme which can lead to challenges if using other operating systems than Microsoft Windows.
