1 Introduction

Welcome to the Bachelor of International Hospitality Management. The degree programme in question is aimed at applicants who wish to obtain a qualifying further education studying towards hotel, tourism, and experience management and who wish to gain applied management competencies.

The Bachelor of International Hospitality Management programme is aimed at ensuring development of professional competencies, and will provide the graduate with qualifications for further education in the future¹. The programme is designed to equip the graduates with knowledge and skills that will enable them to work as e.g. managers, administrators, project managers, or perform other functions in the multi-faceted hospitality industry.

The programme is based on current legislation.

2 Institutions offering the programme

The following education institutions are eligible to offer programme:

1. University College of Northern Denmark /www.ucnorth.dk:
Lindholm Brygge 35, 9400 Nørresundby
2. Academy of Professional Higher Education Lillebælt / www.eal.dk:
Tietgen Business College, Nonnebakken 9, 5000 Odense C
3. Business Academy Copenhagen Business / www.cphbusiness.dk
Copenhagen Hospitality College, Vigerslev Allé 18, 2500 Valby
4. Business Academy Dania, www.eadania.dk
Tradium Randers, Minervavej 63, 8900 Randers

¹ Based on the recommendations on the future of further education within experience economy and development of a Bachelor's degree programme focusing on specific business branches and industries expressed by the working group.

3 Curriculum content

The curriculum for the programme was developed in compliance with the guidelines specified in Danish Ministerial Order no. 636 of 29/06/2009 on professional higher education and bachelor programmes and is divided into two parts, i.e.

- **the core national curriculum** designed for use by all institutions offering the programme and
- **the institution's specific curriculum**, which specifies concrete guidelines and requirements set up by each education provider. The institution's specific curriculum should at least specify the requirements to the student with regard to his/her participation in tuition. Components of a specific curriculum can be developed independently or in collaboration between several education providers.

The core national curriculum in question was developed in collaboration between the four Danish educational institutions offering the programme.

4 Programme aim and duration

The aim of the programme is to prepare individuals to independently analyse, evaluate and review business issues and scenarios, and to perform different complex tasks related to general operation, development and planning, administration and management in hospitality enterprises.

The Bachelor of International Hospitality Management is a three-semester 18-month professional bachelor programme designed to act as an extension (top-up) of the Service, Hospitality and Tourism Management and Marketing Management programmes or other similar programmes.

The programme is approved and accredited by the Danish Ministry of Science, Innovation and Higher Education and the Danish Accreditation Council.

The programme will fill a gap in the Danish educational system, as applicants who have already completed their short-cycle higher education will only need to use one year and six months to obtain a Bachelor's degree. More information on credit transfer, existing cooperation agreements and how to connect with a Master's degree can be found in Chapter 9.

The following figure (Fig. 1) demonstrates the programme’s position in relation to short-cycle and higher education. A full-time academic year is equivalent to 60 ECTS credits.

FIGURE 3 Intended learning outcome

The aggregate programme is a combination of an AP degree and a bachelor degree with a total duration of 3 ½ years (and a total value of 210 ECTS credits). One year of full-time study corresponds to 1650 student working hours. A full-time study load is achieved through a combination of scheduled classes (directed studies), preparation for classes and written assignments, other activities related to the studies, work placement and projects for selected companies as well as self-study and participation in examinations.

4.2 DEGREE TITLE

A degree of ***Bachelor of International Hospitality Management*** is awarded on successful completion of the programme.

5 Programme structure and content

The programme consists of three semesters (5th-7th extension semesters), which will enable the student to acquire academic qualifications within the allocated time.

Having successfully completed the programme, the graduate will have obtained 3.5 years of studies, equivalent to 210 ECTS credits.

5.1 CREDIT POLICIES

There is a credit transfer policy for parts of the program based on already achieved qualifications. The program organizing institution may in each single case award credit transfer for finished modules from Danish or international higher education programs. The decision is based on analysis of the equivalence of the relevant modules made by professional staff.

The equivalence is evaluated on the background of documented and finished modules which are at par with the sections of the program the applicant seeks accreditation for.

Credit transfer is based on an institutional assessment of the parity of already finished modules with the modules of a theoretical nature and also an assessment of career qualifications or internship qualifications and goals that should be at par with the modules the applicant wishes to have transferred.

Proper documentation for passed and finished modules would be formal exam and test certificates or diplomas and/or certificates for courses or modules. Career based qualifications can be documented with employment contracts, recommendations or letters of recommendation or similar.

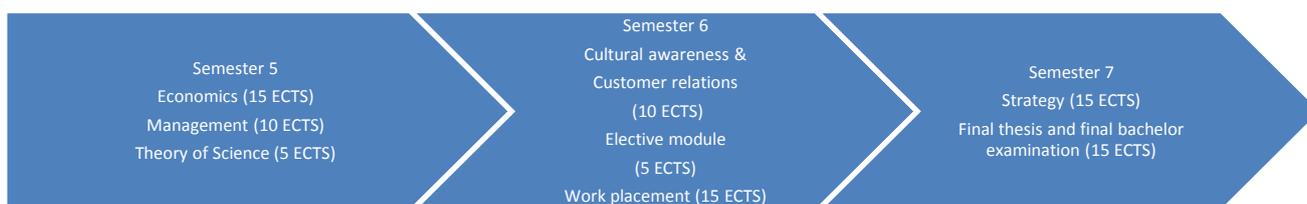

Applications for credit transfer (exemption) shall be made in writing with proper attestation and signed and stamped documents. Applications must be sent to the programmed director in charge of the relevant program at the institution applied for. Credit transfer can be awarded as either a shorter study period for the entire program or as exemption from participation in certain modules.

5.2 SEMESTER STRUCTURE AND ECTS CREDIT DISTRIBUTION

The semester structure of the programme varies in two models – depending on which of the institutions that offers the programme. The two models are illustrated below. The difference between the two models consists in whether work placement and strategy are placed on 6th or 7th semester.

Model 1:

- 1) Business Academy Copenhagen Business / www.cphbusiness.dk
Copenhagen Hospitality College, Vigerslev Allé 18, 2500 Valby

7 Work placement

Value: 15 ECTS

The work placement is held on 6th or 7th semester depending on the institution (refer to the institutions specific curriculum).

The work placement period has the value of 15 ECTS credits and takes place in the sixth semester. Work placement is a full-time equivalent of a job performed in a business setting, with a workload of 30 hours per week, excluding writing a work placement report and a work placement learning

journal. Scheduling the work placement in the sixth semester allows the student to acquire professional competence and apply theory and methodology in a real-life business setting and also to assess and reflect on the practical issues that are relevant to the bachelor project and final bachelor examination. The student who is enrolled on the bachelor programme will normally have completed a compulsory 3-month work placement with the value of 15 ECTS credits as a part of their AP degree (or similar). To successfully complete a bachelor degree, the student should therefore complete another 3-month (15 ECTS-credit) placement.

The student may receive Danish Government student support (in Danish: SU) during the placement if he/she is entitled to SU. The placement itself is a non-paid experience; however, the student may on an individual basis negotiate a salary or any other remuneration with the placement host.

7.1.1 Aim of the work placement

The aim of the practical experience is to allow the student to develop professional qualifications required for acting professionally in situations of increased complexity and to provide the student with insights into complex issues that a manager/consultant is faced with in his daily work in the hospitality sector.

To ensure that the placement is not a mere apprenticeship in its traditional sense, the student must reflect on practice and relate his/her new knowledge of practice to the theoretical instruction at the educational institution. The interaction between theory and practice is what characterizes this bachelor programme; however, is also a significant challenge to achieve the desired synergy between the education's practical and theoretical parts.

The placement must contribute to achieving the objectives of the programme, described in Section 4.1 in terms of obtained knowledge and understanding, skills, and competencies.

Together with the above, it gives the student the opportunity for practical application of knowledge and tools and helps develop skills in assessing and reflecting on practical issues, as well as substantiating chosen actions and solutions. Moreover, the central idea of the placement is to

enable the student to handle complex situations in practical contexts, undertake responsibility, and participate in management functions as well as identify one's own learning needs.

Since the placement is a part of the learning process, it is important to evaluate it from all perspectives, which in its turn will ensure that the placement of the future students can be improved and the experience gained can be integrated into the teaching process.

7.1.2 Work placement company search and placement provider approval

It is the student's responsibility to search independently and individually for a work placement host. The training provider may provide some guidance and assistance. The choice of the work placement company, and the work placement contract, must be approved by the supervisor. In the case, when the relevance of the company's profile (and thus aims and objectives of the placement) to the programme is questionable, it is the Programme director who takes a decision on whether or not a placement host can be approved.

8 Bachelor project – aim, prerequisites and content (15 ECTS)

The Bachelor programme in the International Hospitality Management culminates in the development and submission of a final bachelor project and a subsequent final bachelor examination at the end of the seventh semester. The bachelor project should demonstrate the student's ability to combine theoretical, practice- and development-orientated elements and communicate it through a solid methodological (read: at both academic and professional levels) foundation. The project is a research into and an analysis of a practical (existing) problem, which is carried out in cooperation with an enterprise/organisation². The bachelor project should be of interdisciplinary character and must contain financial considerations.

² In exceptional situations, the final bachelor project can be based on a broader industry-related business problem, which is not related to the specific enterprise. In this case, the research question must be defined in cooperation between the student and the education provider. Both project title and the research question must be approved by the appointed supervisor.

The bachelor project is normally produced on an individual basis. However, by exception, the students may send application for special consideration if they wish to write a group bachelor project to the Programme director. The paper must demonstrate the student's interdisciplinary knowledge and academic perspective. The overall subject of the bachelor project is to be defined by the student in cooperation with an assigned project supervisor and an enterprise. The research question together with the project title should be submitted to the appointed supervisor for approval.

In the bachelor project the candidate should be able to reflect on the ways methodology and theories are applied in the international hospitality enterprises. A key requirement will also be that the candidate displays an ability to use methods and tools for data collection and analysis, what should in its turn enable the candidate to create effective solutions to practical problems and communicate that to the partners (stakeholders) and end users. The candidate is also expected to evaluate the research problem(s) and support his/her viewpoint on the possible initiatives and solutions with reasoning and evidence.

The candidate must have taken all courses and have passed all previous examinations and compulsory progression assessments, including work placement, to be accepted to the final bachelor examination.

9 Examinations and assessments

In the present chapter, as well as chapter 10 and 11 (further in the Institutions' specific curriculum) specifics and time schedule are presented.

Examinations and assessments cover widely all types of exams, internal/external exams/assessments, national/institutions' specific exams and assessments and learning activities. External exams are assessed by an examiner and a censor, where censors are appointed by The Agency of Higher Education and Educational Support. Internal assessments are assessed by one or more examiners from the institution.

11 Conditions in relation to exams and assessments

11.1 STUDY ACTIVITY, OBLIGATION TO PARTICIPATE AND OBLIGATION TO ATTEND

Obligation to participate.

The Bachelor of International Hospitality Management programme is based on (among other things) experience-based learning processes that are process- and action oriented.

This requires the students presence, in the shape of active participation e.g. group work, presentations or distance learning, as a precondition for achieving adequate learning and knowledge. The students active participation is contributing to the heightening of the professional and pedagogical level of the programme. The obligation to participate can further more include the obligation to hand in written assignments etc.

Obligation to participate therefor means, that the student is obligated to be present by actively participate in own, and fellow students, learningprocess, and hand in e.g. written assignments.

Consequence of ignoring the obligation to participate as a prerequisite of participating in exams

The obligation to participate including the obligation to attend may be prerequisites of exam participation.

The obligation to participate and the obligation to attend are described for each exam in the curriculum. The curriculum will also state whether these are prerequisites for participating in exams.

Late or incorrect compliance with formal requirements such as:

- submission deadlines
- coursework form (electronic, paper-based)
- non-compliance with formal requirements e.g. to a written assignment
- non-compliance with the obligation to attend

will, if the activities are prerequisites to attending an exam, be considered equal to absence from the exam, and the student will have spent an exam attempt.

Non-compliance with content requirements:

If a written assignment has academically dishonest contents or if it contains intellectual property of others e.g. text, figures, tables, templates etc. without references to the source(s) (plagiarism), cf. UCN's requirements to written assignments, it will be rejected on the grounds that the obligation to participate and thus the content requirements have not been met. If these activities are

prerequisites of participating in the exam, they will be considered equal to absence from the exam and the student will have spent an exam attempt.

A rejection of an assignment and non-compliance with formal requirements will furthermore be registered as violation of the requirement to active participation in studies regarding receipt of SU if the student is so eligible. Please see the regulations on this matter.

Obligation to attend.

Obligation to attend means that the student is physical presence at the place of the learning activity or lesson.

Consequence of ignoring the obligation to attend

The consequence of ignoring the obligation to attend will be described in the institutions specific curriculum.

Special registration of attendance.

The institution can introduce additional attendance checks for the academic activities. In that case the students are informed about the form of registration. The form may vary and can be performed by the lecturer, the students and others. If the student approaches the absence limits we have set, he/she will receive an advance warning, informing about the possible consequences.

The student can be withdrawn from the programme, if he/she has not actively participated in the academic activities for a continuous period of at least one year.

Active participation in studies means that the student over the last 12 calendar months:

1. has at least sat two different examinations;
2. has achieved a pass mark in at least one examination;
3. has participated in the activities that constitute the programme in question, namely group work, joint projects, distance learning, etc. For further details please consult the curriculum;

4. has submitted written the papers, namely assignment, project reports, learning portfolios, etc. (in accordance with the curriculum) which form part of the examination prerequisites. The submitted papers must comply with the 'fair use' content requirement;
5. has participated in all activities /arrangements with compulsory attendance, in accordance with the curriculum.

The student's enrolment can be terminated, if the student does not satisfy one or more criteria of active participation in studies presented above.

The periods of time when the student does not actively participate in studies due to leave of absence, maternity/paternity leave, adoption, significant illness (with medical certificate) or compulsory military service are not regarded as the lack of active participation in studies. The student will be though requested to provide documentation, confirming the above.

The Programme director can take account of genuinely exceptional problems or exceptional personal circumstances. An application for special consideration must be sent to the Programme director.

In the case of the termination of enrolment, the student will be notified about it in writing. The student will be then informed about the rules above and will be given 14 days to provide supporting documentation of his/her absence that should not be regarded as a lack of active participation in studies. Together with this the student will be announced the deadline for the application for special consideration.

The student will be withdrawn from the programme in question, if we do not receive any answer within the allotted time.

If the student applies for special consideration, the student's enrolment becomes subject to a suspensive condition, until the Programme director has considered the case.

The student has the right to complain directly to the Programme director about the decision within two weeks from the receipt of the notification. The complaint will be subject to suspensive condition. If the decision remains unchanged, the student has the right to send his/her complaint to the Ministry within the two weeks from notification with regard to the legal issues related to the matter.

11.2 APPLICATION FOR SPECIAL CONSIDERATION

If the student is unable to participate in the examinations described above or if the student wishes to withdraw from any of the examinations described above, a written application for special consideration must be sent to the institution. Permission will be granted only if the training institution considers that the cause of absence from the examination is relevant (significant illness, death or critical illness of a close family member or similar).

11.2.1 Spelling and writing skills

Spelling and writing skills will be part of the assessment criteria for the professional bachelor degree project (10%), the academy profession degree project and the exams in which those skills are part of the assessment criteria as stated in this curriculum.

The assessment is expressed as an overall assessment of the professional and academic content as well as the student's spelling and writing skills.

Students may apply for an exemption from the requirement that spelling and writing skills form part of the assessment criteria if the application is verified by physical or mental impairment. The application should be submitted to the programme and directed to the attention of the programme director not later than 4 weeks before the exam is to be held.

11.2.3 Special exam conditions

Students may apply for permission to use a PC for written exams that take place at the institution if the application is verified by physical or mental impairment. The application should be submitted to the programme not later than 8 weeks before the exam is to be held. The application deadline may be extended in cases of sudden health-related problems. With the application you should enclose a doctor's certificate/note; a statement from e.g. a speech, hearing, dyslexia or blind institute or other evidence of your health condition or a relevant specific impairment.

11.4 MARKING OF EXAMS/ASSESSMENTS

In connection to oral exams (viva) the mark is given to the student immediately after the viva. For assessments where the mark is not given immediately after the exam, it will be announced on the same day as the exam when the mark will be announced. The announcement will be given no more than 10 working days after the exam.

In connection to written exams the mark will be send by mail, or announced public (using the students exam number).

11.5 COMPLAINTS ABOUT EXAMS AND APPEALS AGAINST DECISIONS

Students are recommended to seek guidance from the student counsellors in connection with the complaints procedure and writing a complaint.

The regulations for complaints about exams can be found in s. 10 of the executive order on examination regulations.

The Executive Order divides complaints into two kinds,

1. complaints about the examination basis etc., the course of the exam and/or the assessment, and
2. complaints on the grounds of legal irregularities.

The two kinds of complaints are dealt with differently.

Complaint about the examination basis etc. the course of the exam and the assessment

Within 2 weeks after the assessment of the exam has been announced in the usual way, a student may submit a written, substantiated complaint about:

1. the exam basis including the exam questions, assignments etc. and its connection to the purpose and requirements of the programme
2. the examination procedure
3. the assessment

The complaint may concern any exam including written examinations, oral examinations and combined exams as well as practical, clinical or laboratory exams.

The complaint should be submitted to the relevant programme director.

The complaint will immediately be brought before the original assessors, i.e. the examiner and the external examiner from the exam in question. The statement made by the assessors must be usable as the base of the institution's decision on academic/professional matters. The institution will usually give the assessors a deadline of 2 weeks to make their statements.

Immediately after the statements are made available, the student will be given the opportunity to comment on them within, usually, one week.

The decision will be made by the institution based on the academic/professional statements made by the assessors and any comments made by the student.

The decision must be made in writing and must be substantiated. It may regard

1. an offer of a new assessment (re-assessment), this only applies to written examinations
2. an offer of a new examination (resit)
3. a dismissal of the complaint

If it is decided that the student will be offered re-assessment or a resit exam, the programme director will appoint new assessors. Re-assessment may only be offered in cases of written exams where written material exists for assessment, as new assessors will not be able to (re-)assess an already held oral exam and as the notes of the original assessors are personal and cannot be passed on to others.

If the decision is to offer the student a re-assessment or resit exam, the student must be notified that a re-assessment or a resit exam may result in a lower grade. The student must accept the offer within 2 weeks of the announcement of the decision. Acceptance of an offer of re-assessment

or resit exam cannot be cancelled. If the student does not accept the offer within the deadline, re-assessment or a resit exam will not be carried out.

Re-assessment or a resit exam must take place as soon as possible.

On re-assessment, the assessors must be presented with the case documents: The exam paper, the student's assignment, the statements made by the original assessors with the comments made by the student, and the decision made by the institution.

The assessors will deliver the result of the re-assessment including a written explanation and their assessment. Resit exams and re-assessments may result in lower grades than the initial grades.

If it is decided that a re-assessment or resit exam will be offered, the decision will apply to all students who took the exam in question if their assignment features the same deficiency as the one being complained about.

The complaint must be submitted to the programme director not later than 2 weeks (14 days) after the assessment results of the exam in question have been announced. If the deadline falls on a holiday, the deadline will be extended to expire on the first weekday after that day.

In extraordinary circumstances, the deadline may be disregarded.

11.5.2 Appeals

The appellant may bring the institution's decision on academic/professional matters before an appeals board. The activities of the appeals board fall under the Danish Public Administration Act including the stipulations on legal incapacity and the duty of silence.

The appeal should be submitted to the programme director.

The deadline for appeals is two weeks after the student has been notified of the decision. The above-mentioned requirements to complaints (being in writing, substantiated etc.) also apply to appeals.

The appeals board is made up of two appointed external examiners who will be appointed by the chairman of the external examiners, one examiner and a student within the same field (from the study programme) both appointed by the programme director.

The appeals board will make a decision based on the material that formed the base of the institution's decision and the student's substantiated appeal.

The appeals board will process the appeal and the decision may regard

1. an offer of a new assessment (re-assessment) made by new assessors, this only applies to written examinations
2. an offer of a new examination (resit) with new assessors, or
3. a dismissal of the complaint

If the decision regards an offer of a re-assessment or a resit, the appellant must be notified that a re-assessment or resit exam may result in lower grades. The student must accept the offer within 2 weeks of the announcement of the decision. Acceptance of an offer of re-assessment or resit exam cannot be cancelled.

If the student does not accept the offer within the deadline, re-assessment or a resit exam will not be carried out.

Re-assessment or a resit exam must take place as soon as possible.

On re-assessment, the assessors must be presented with the case documents: The exam paper, the student's assignment, the statements made by the original assessors with the comments made by the student, and the decision made by the institution.

The appeals board must have made a decision not later than 2 months, 3 months for summer exams, after the appeal was made.

The decision of the appeals board is final meaning that the case cannot be brought before a higher administrative authority regarding the parts of the appeal that concern academic/professional elements

11.5.3 Complaints on the grounds of legal irregularities

Complaints on the grounds of legal irregularities in decisions made by the assessors in connection with re-assessment or resit exams or the appeals board's decisions may be brought before University College of Northern Denmark within 2 weeks of the day the student was notified of the decision.

Complaints on the grounds of legal irregularities in decisions that were made by the institution according to the stipulations in the executive order on examination regulations (e.g. legal incapacity, the hearing procedure, correct interpretation of the executive order on examination regulations etc.) may be brought before the Danish Agency for Higher Education and Educational Support. The complaint should be submitted to the institution which will make a statement and the student must be given the opportunity to comment on this statement, the deadline being usually one week. The institution will submit the complaint, the statement and any comments made by the student to the Agency. The deadline for lodging complaints with the institution is 2 weeks (14 days) from the day the student was notified of the decision.

11.6 WITHDRAWAL AND ILLNESS

11.6.1 Withdrawal from exams

The deadline for due withdrawal from exams is 14 days before the exam is to be held or before the submission deadline for written work when that written work is part of the examination basis or the assessment basis. A withdrawal notice must be given to the programme.

If a withdrawal notice is not presented in due time, the exam will be considered started and will count against the student's number of exam attempts, cf. the executive order on examination regulations, s. 6. This shall not apply if the student is prevented from participating in exams because of (verified) illness, cf. the executive order on examination regulations s. 7.

Withdrawal from exam(s) that take place immediately after the instruction period and that are scheduled to take place in the first academic year according to the executive order on examination regulations / the curriculum **cannot** be made as students **must** sit these exams before the first academic year after study start elapses.

11.6.2 Illness resist exams

A student who was prevented from attending an exam owing to verified illness or other unforeseen reason will be able to resit the (illness resit) exam as soon as possible. If the exam takes place in the final exam term, the student will have the opportunity to sit the exam in that exam term or immediately after the term.

Illness must be verified by a doctor's note. The educational institution must receive the doctor's note within three working days after the exam was held. Students who suddenly become ill during an exam must submit verification that they were ill on the day in question.

If illness is not verified according to the above rules, the student will have spent an exam attempt. It is the student's responsibility to cover the expense of the doctor's note.

Withdrawal from illness resit exams

Withdrawal from an illness resit exam follows the same rules as withdrawal from regular exams. The institution may disregard withdrawal deadlines in cases of extraordinary circumstances.

11.7 Examination language

Exams must be conducted in understandable Danish/English. In connection to the international module the examination language will be English for all.

Students whose mother tongue is not Danish/English may apply for an exemption from the requirement that spelling and writing skills form part of the assessment criteria for the professional bachelor degree project or the academy profession degree project as well as exams in which such skills are stated in this curriculum to be part of the assessment criteria. The application must be submitted to the programme not later than 4 weeks before the exam is to take place.

Students whose mother tongue is not English may apply for permission to bring dictionaries to exams. Applications for permission to bring other study aids must be submitted to the programme not later than 4 weeks before the exam is to be held.

12 Academic misconduct

12.1 ACADEMIC MISCONDUCT AND EXAMS

When handing in a written exam assignment, the student must confirm by signature that the assignment was prepared without undue help.

12.1.1 Use of your own and others' work – plagiarism

When using words of others (through quotes, tables, text from the internet, statements, replication of a text from a book etc), the source **HAS** to be mentioned.

Academic misconduct at exams in the form of plagiarism are instances where a written assignment, in full or in part, appears to have been made by the student or students themselves, even though the assignment:

1. includes identical or near-identical wording of other people's statements or works where the text is not set off by the use of quotation marks, italics, indentation or any other clear indication with a reference to the source, cf. UCN's requirements to written work.
2. includes substantial sections of text that are so similar to another work in wording etc. that on comparison it is clear that the sections could not have been written without the use of the other work
3. includes the use of other's words or ideas without giving due credit to the sources
4. re-uses text and/or central ideas from your own previously assessed works without observing the stipulations in sections 1 and 3.

12.2 Disciplinary actions in events of academic misconduct and disruptive behaviour during exams

A student who undoubtedly

- unduly obtains help, or
- helps another student answer an assignment, or
- uses non-authorised aids

and

a student who

- behaves in a disruptive manner at an exam
may be expelled from the exam room while the exam is taking place by the programme director, a person authorised by him/her, or jointly by the assessors. In such cases, the justification of the expulsion will be assessed in connection with the subsequent decision on the sanctions to be imposed. In cases of less serious disturbing behaviour, students will first be given a warning.

12.4 Suspected academic misconduct at exams including plagiarism, during and after the exam

If during or after an exam, a student is suspected of

- having obtained or provided undue help,
- passing off another person's work as their own (plagiarism), or
- having used his/her own previously assessed work or parts of it without reference (plagiarism)

this will be reported to the relevant programme.

12.5 The process of identifying academic misconduct including plagiarism

Suspension of the exam

If the reported misconduct regards plagiarism in a written assignment that is to make up the basis of assessment for a subsequent oral exam, the programme director will suspend the exam if the matter cannot be settled before the fixed examination date.

Form and contents of the report

Misconduct must be reported without undue delay. The report must include a written presentation of the case with information to identify the reported persons, as well as a brief account of the matter and the existing evidence. Previous incidents of academic misconduct by one or more of the reported students must be stated explicitly.

When plagiarism is reported, the copied sections must be clearly indicated and a reference to their sources stated. The copied text must also be indicated in the source text.

Involving the student - hearing of the parties

The programme director decides whether the hearing of the student will be oral, in writing or a combination.

For an oral hearing, the student will be summoned for a discussion for further clarification of the case where he/she will be presented with the documentation of the assumption of academic misconduct and where he/she will be able to state his/her point of view. The student has a right to attend with a companion.

For a written hearing, the documentation of suspected academic misconduct will be sent to the student requesting him/her to state his/her point of view in writing.

Sanctions against academic misconduct and disruptive behaviour during exams

If the suspected misconduct is confirmed after the matter has been investigated, and if the misconduct has had or will be able to have an influence on the assessment of the student's performance, the programme director will expel the student from the exam.

In less serious offences, the student will first receive a warning.

In aggravating circumstances, the programme director may suspend the student for a period of time at the programme director's discretion. In such cases, the student will receive a written warning that any further instances of misconduct may lead to permanent expulsion.

A period of suspension means that any grades awarded for the exam in question will be annulled, and that the student will have spent an exam attempt.

The student will not be allowed to resit the exam and will have to wait until the ordinary exam in that particular module/course is offered again.

The student cannot participate in lectures or exams while being suspended.

12.6 Study aids

Study aids are not allowed at exams unless otherwise indicated.

13 INTERNATIONALIZATION

The international dimension constitutes an integral part of the International Hospitality Management Programme, which clearly reflects a sustained globalization trend.

That is why in order to successfully launch and provide the training in question, it is imperative to allow access to/inherit practice of the best European specialist hospitality education institutions.

The developers of the curriculum in question drew their inspiration for the framework of this programme and its content from the best practice of these hospitality schools.

One of the main objectives for working with internationalisation is to help contribute to the professional development and creative thinking of the students and in general during the tuition.

The internationalisation aspect is embedded in all elements of the curriculum but it gains considerable visibility in the sixth semester, which includes a course in Cultural awareness & Customer relations and a work placement that can be taken abroad.

There exists a list of accredited partner universities offering specialised hospitality degrees. Cooperation with these ensures that the level of the programme in question fully complies with the requirements for a bachelor degree level.

Teaching will reflect international research findings, obtained from various printed resources and knowledge exchange partners by means of guest lecturing. Teacher mobility between partner universities will also help augment the international profile of the programme.

14 Credit transfer and postgraduate programmes

The partner agreements may allow the individual graduate who obtained a Bachelor's degree in International Hospitality Management admission to postgraduate programmes with a full credit

transfer. Until formal agreements have come into effect, the transfer can be negotiated with the student on an individual basis.

- Tourism – Master’s Degree Programme at Aalborg University. A grade average of minimum 7 in order to get admitted and an additional individual assessment interview
- MSc in International Business at University of Southern Denmark
- MSc in Management and Strategy at University of Southern Denmark
- MSc in Marketing, Communication and Globalisation at University of Southern Denmark

The institutions are continually working on credit transfer and postgraduate programme agreements both nationally as well as internationally.

This curriculum is valid from September 1st 2012
